

3D Robotics Integration Seminar

Join us at our annual Robotics Integration Seminar taking place on 19 March 2014.

At the last seminar we launched our MELFA F Series Robot range, showcasing how they can be integrated and controlled with other automation products on the same platform.

This year we will be focusing on 3D vision, CAD Cam and modelling as well as auto path generation, force control and robots in the Food and Beverage industry.

When

Wednesday March 19, 2014
from 10:00 AM to 3:00 PM

Where

**Mitsubishi Electric
Conference Centre**
Travellers Lane Hatfield
Hertfordshire
AL10 8XB
